❑ **30+** Clients

❑ **70+** Projects

# Why Am I Doing This?

I am seeing so many business that still using social media and *free website* to host their business website. Although there is nothing wrong with that, it will end up hurting them in the long run. With that being said, I have prepared a solution that can benefit both your business and me at the same time.

## My core values

Complete transparency

No corporate jargon

No meeting required

Cost effective

# Why Your Business Need A Website

## Strong Online Presence

A well-designed and beautiful website is designed to make the company's services and products more visible.

## Attract Higher Quality Prospects

A good design can help brands generate more leads as it makes them look more modern and appealing to their visitors.

## Build Trust

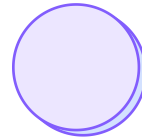

The website design has a great effect on the business in terms of shaping the first impressions.

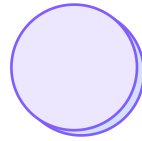

## Looks More Professional

It is what people see when they visit your site and what they may remember if they decide to conduct business with you.
